

Fabrication, Installation and Design Input

After a successful project-long partnership working with Westfield in Derby, Watermark was called on to fabricate and install this showpiece polished stainless steel finished staircase at Westfield White City London.

Watermark Project Manager Kevin Williams recalls the some of the challenges met by the team;

White City, London – The UK's second largest shopping centre

Polished Stainless Steel finishing including posts

“ we came across unusual technical and design challenges but by talking to the architects and engineers much of the design was actually re-worked by Watermark, something for which in the end the architect was very grateful ”
